

## SAMUEL PARKER HAS PASSED ON

GOES JUST TWO DAYS BEFORE  
90TH BIRTHDAY; FAMILIAR  
FIGURE ON STREETS

## FUNERAL SATURDAY

FORCEFUL CHARACTER AND OF  
WIDE ACQUAINTANCE AMONG  
MANY PUBLIC MEN

Samuel Parker has passed on. The tall, bent form, with its crown of snow-white hair, so long a familiar figure on the streets of Glendale, is now laid low and his spirit is with its Maker. The end came last evening, January 19, 1921, within just two days of his 90th birthday.

Funeral services will be held on Saturday at 2 p. m. from the First M. E. church, Rev. Clyde Monroe Crist officiating, assisted by Rev. Leslie G. Parker, pastor of the Burbank Christian church, a nephew of the deceased. The Jewel City Undertaking company is in charge. The remains will be taken to Henry, Illinois, where they will be interred in the family lot.

### Born in State of Ohio

Samuel Parker was born near Millwood, Knox county, Ohio, January 21, 1831. On October 31, 1854, at La Salle, Illinois, he wedded Miss Mary Virginia Doffler. Two sons were born of this union, Ezra F. and Francis M. The latter died December 13, 1913, in McDonald, Kansas.

Mrs. Parker died March 12, 1863, in Henry, Illinois, where the family had moved, and on October 31, 1865, Mr. Parker married Anna M. Bacon. Two sons were born of this second union, Robert Horace and John William, both of whom are yet living, the former in San Francisco, and the latter in Portland, Oregon.

The family moved to Chicago in 1874 and there the second Mrs. Parker died December 14, 1891.

### Comes to Glendale in 1911

In 1911 Mr. Parker and his friend of long standing, W. A. Webber, came out from Chicago to locate in Glendale. They arrived here October 19, Mr. Parker at once aligned himself with the First M. E. church and continued a faithful member until his death, never missing a service when it was possible to attend. His son, Ezra, frequently took him to the church when he was unable to walk.

For more than seventy years deceased was an earnest, working member of the Methodist church. He was connected with Centenary church in Chicago more than thirty-five years, was nearly always on the official board and more than once acted as Sunday school superintendent.

### Life-Long Republican

Samuel Parker made his mark on every community in which he lived, as his was a strong, forceful character. He was a life-long Republican. (Continued on Page 3)

## PREPARE PLANS ON GRADUATION

MEMBERS OF SENIOR A CLASS  
OF LOCAL HIGH SCHOOL  
DECIDE ON DETAILS

## SPEAKER IS CHOSEN

LESLIE B. HENRY IS SECURED  
TO SPEAK ON JANUARY 27  
AT COMMENCEMENT

Commencement exercises for the senior A class of the Glendale high school will be held on Thursday night, January 27, and plans for the graduation of the mid-winter body of students are being completed.

The commencement exercises are in charge of Miss Helen Beach and, it is announced, she is arranging a very satisfactory program. DeLeon Anthony and Victor Francy are assisting Miss Beach in some of the details.

It is proposed to reserve all of the seats in the rear of the auditorium, where the exercises will be held, for the use of the high school students.

The class exercises and the commencement will be held on the same night this year, it has been decided.

### Speaker Secured for Night

The speaker selected for the commencement exercises is Leslie B. Henry. He is on the speakers' bureau of the California Federation and is said to be unusually gifted. He made a talk to the boys of the high school last month and, as a result, it was decided to secure his services for the graduation on January 27.

One of the unusual features of the senior A class this year is that there are about three times as many boys to graduate as there are girls. This is not, state school authorities, usual, for in nearly every case the girls are in the majority.

## REPORTS THEFT

TOOLS AND WRAPS REMOVED  
FROM MACHINE WHILE IT  
STANDS NEAR CHURCH

Wednesday night Edward Shively, 127 North Orange street, parked his car in front of the Church of the Brethren at Park and Glendale avenues, while he attended the evening service.

When he returned, he found that his tools and the wraps in the car had been stolen. The theft was a bold one, for the automobile stood but ten feet from the church.

MRS. J. R. BRIGHT IS HOSTESS  
Fifteen members of the first division of the Baptist Women's union were entertained today at the home of Mrs. J. R. Bright, 319 North Maryland avenue, at an all-day meeting.

The making of quilts for the Social Welfare League was the business of the day. Luncheon was served at noon, and a social hour was enjoyed.

## CHARTER TO BE GIVEN IN FULL

OFFICIAL TEXT TO APPEAR  
IN THE EVENING NEWS  
OF FRIDAY'S ISSUE

## TAKES TWO PAGES

COPIES OF DOCUMENT TO BE  
FURNISHED FREE BY CITY  
WITHIN FEW DAYS

The charter proposed for the city of Glendale will be published in full in The Evening News in Friday's issue.

Fourteen columns are required to give the document in its complete and official form.

The proposed charter was filed with City Clerk Sherer on Wednesday of last week. On Thursday it was presented to the trustees and by them ordered published in the city official newspaper, as required by law. The Evening News has put the entire document into type and it will appear in tomorrow's issue.

The law also provides the city shall cause to be published a number of copies of the proposed charter to be given free to all who may apply for them at the city hall. These copies will be available within a few days. Official announcement of the time they are ready for distribution will be made by City Clerk Sherer.

### Election Day Is March 29

The special election at which the voters of the city will pass upon the proposed charter will be held on March 29.

Although the proposed charter continues the managerial form of government under which the city of Glendale now functions, there are a number of changes sought by the board of freeholders, of which Bert P. Woodard is chairman.

The proposed charter, as it will be printed in The Evening News tomorrow, is set in the same sized type as the "body" of every issue of this newspaper, hence it may be easily read.

It is the plan of the board of freeholders to conduct a "campaign of education" before the voters to insure the adoption of the change in governmental form.

S. navy for nearly twenty years and who also was a member of congress, spoke last night at the Central school, Eagle Rock City, to a good-sized audience. Captain Hobson is a member of the Anti-Saloon league. His subject for the evening was "The Crisis" and he discussed prohibition and its enforcement.

## ZONING BUREAU MAKES REPORT

PROPOSED ORDINANCE TO BE  
GIVEN TO CITY TRUSTEES  
FOR CONSIDERATION

## DISTRICTS ARE SET

SECTIONS OF GLENDALE ARE  
SET ASIDE FOR CERTAIN  
KINDS OF BUSINESS

The zoning committee, which has been faithfully on the job for many weeks, held its final meeting yesterday afternoon unless something unexpected turns up and they are called together by the chairman. Those present at yesterday's meeting were F. H. Vesper, chairman; Mrs. Anna P. Bartlett, Mrs. A. A. Barton, Mrs. Opal Greenwalt, Miss Eva Daniels, L. T. Rowley, C. W. Ingledue, H. E. Bartlett, City Manager Watson and City Engineer Hill.

Mr. Watson read the proposed ordinance which the committee will recommend to the city trustees for passage after thorough discussion and explained, by means of a large map of the city, colored to represent the different zones; just what the committee had worked out, that is, three distinct zones or districts with eight classes of buildings, as follows:

Residence district, class 1—single family dwelling districts; class 2—dwelling, flat, apartment, tenement, boarding house, lodging, hotel and dormitory districts, also include uses permitted in class 1.

For Business District  
Business and public use districts, class 3—retail businesses, trades, professions and store districts, also uses permitted in classes 1 and 2; class 4—retail businesses and public garages, oil supply stations, dyeing and dry cleaning, food business concerns, also including uses permitted in sections 1, 2, 3 and 5; class 5—churches, schools, playgrounds, parks, public and semi-public buildings, private recreation, amusement and baseball parks, greenhouses and nurseries, also including dwellings of classes 1 and 2; class 6—hospitals, sanitariums, philanthropic and charitable institutions, also dwellings of classes 1 and 2; class 7—motion picture production district.

Industrial districts, class 8—laundries (not noxious) factories, warehouses, industrial buildings, including any business use.

Propose Map in Colors  
In the ordinance which the committee recommends that the city trustees adopt, each district will be located and bounded, and probably, a map showing said districts by different colors will be appended as a part of said ordinance.

Two matters which the committee had been considering were left open (Continued on Page Six)

## MENACES BRIDGE

DARK CANYON STRUCTURE IN  
DANGER AS RESULT OF  
HEAVY RAINFALL

If the present storm continues, total destruction of the Burbank bridge over Dark canyon may result, according to the statements made by county authorities. Dark canyon is just south of Universal City.

It is stated that the north end of the bridge has already been undermined by the water which has flooded the canyon as the result of the heavy fall of rain. Motorists are being instructed to avoid the Dark canyon road.

The torrent of water in the canyon has been eating away at the sides of the canyon at both ends of the bridge and guards have been stationed to warn motorists.

Authorities say that if the storm lets up, the bridge will be saved from further destruction, but if the rain continues the whole structure may go.

## LOCALS WINNER

DYNAMOS CLUB TAKES GAME  
OF BASKETBALL FROM  
OCCIDENTAL TEAM

The Glendale Presbyterian Dynamo club played its second basketball game with Occidental college on Tuesday in the high school gymnasium. The Glendale club won from Occidental by a score of 25 to 35. The club squad is preparing for the A. A. U. struggle which will take place in February.

## JURY TO TRY MRS. LOUISE PEETE SECURED

(Special Service to Glendale Evening News)  
LOS ANGELES, Jan. 20.—A jury to try Mrs. Louise L. Peete, accused of the murder of Jacob Charles Denton, rich mining promoter, was completed just before the noon recess today at her trial before Judge Willis.

A dozen men, in whose hands rests the life or liberty of the pretty woman of mystery, were accepted by counsel for both the prosecution and the defense by the court announcement:

"We are satisfied with the jury."  
The oath was administered by the clerk and Judge Willis directed the lawyers to call a thirteenth juror who will act as a substitute in the event any one of the twelve jurors who actually try Mrs. Peete becomes ill or incapacitated.

## HOOVER SUGGESTS EXTENSION OF CREDIT

(Special Service to Glendale Evening News)  
WASHINGTON, Jan. 20.—The only solution to the present economic depression in the United States and throughout the world is extension of credit to the starving countries of Europe, Herbert Hoover, former food administrator and mentioned prominently for a place in the cabinet of the next administration, told the house agricultural committee today.

Hoover launched forth unexpectedly into a discussion of the world's food and economic situation, the subject with which he is most familiar, at the end of his testimony before the committee, which sought his opinion on pending legislation to prevent manipulation in hedging-in grain transactions.

## SAYS BRITISH INTERESTS INTERFERING

(Special Service to Glendale Evening News,  
WASHINGTON, Jan. 20.—Charges that an agent of the United States shipping board disapproved establishment of an American line out of Newark, New Jersey, because "it would injure business of British lines sailing out of New York," were made public today by Senator Jones of Washington.

Jones told of the alleged incident during a speech at the opening of the convention of the National Merchant Marine association today. He also charged that British interests had conducted a deliberate campaign to destroy the American merchant marine.

## HARDING CABINET IS NOT YET SELECTED

(Special Service to Glendale Evening News)  
MARION, O., Jan. 20.—The real conferences with the best minds will take place at St. Augustine, Florida, where President-elect Harding will do his actual cabinet making, it was learned today. He was busy clearing off his desk today and leaves late tonight for Florida. There is no Harding cabinet yet, it developed. A shadow of a doubt even hung about Charles E. Hughes. He has hitherto been accepted as the next secretary of state. A hard drive is being made in favor of Elihu Root, it was learned.

## SCOTLAND YARD MAKES EXTENSIVE RAID

(Special Service to Glendale Evening News)  
LONDON, Jan. 20.—"Important documents" were seized in a raid on Sinn Fein centers throughout London today. Scotland Yard conducted a search for arms and ammunition but none was reported found. No arrests were made.

The raid was one of the most extensive in recent months and was reported to have been determined upon after rumors had arisen of a wide-spread plot of property destruction.

## FAVORABLE REPORT ON DISARMAMENT BILL

(Special Service to Glendale Evening News)  
WASHINGTON, Jan. 20.—The senate foreign relations committee today ordered a favorable report on the Borah disarmament bill with amendments.

## BUY TWO LOTS

MR. AND MRS. J. F. MERCER TO  
LOCATE IN GLENDALE AS  
RESULT OF VISITS

J. F. Mercer and wife arrived Monday from Butte, Montana, to spend a few months with the families of Geo. D. and Floyd Mercer, brother and nephew of J. F., at 319 North Jackson. J. F. Mercer is an engineer on the Northern Pacific, and has been for twenty-six years.

In four years more he will retire on a pension and he and his wife decided, after several visits here, that they would like to spend their declining years in Glendale. So they bought two lots on West Dryden, 400 and 404. On the latter they are building a garage and as soon as it is completed will move into it so they can supervise the erecting of a 5-room bungalow on the front of the lot, which they expect to be their home when Mr. Mercer retires.

As soon as the building of the house is well along toward completion, Mr. Mercer will go back to Butte to resume his work as engineer.

## IMPROVE HOME

MR. AND MRS. E. Z. BARNETT  
BEAUTIFY RESIDENCE AT  
109 W. LOMITA AVE.

Mr. and Mrs. E. Z. Barnett, who recently moved from their home at 712 East Windsor Road to another home which they own at 109 West Lomita avenue, have been busily engaged painting the house inside and out, doing the floors over and otherwise refurbishing and burnishing up the pretty place.

The Barnetts intend to glass in the southwest half of their broad front veranda, and to build a pergola at the opposite end.

These and other contemplated improvements will make this place one of the prettiest of the many pretty homes on Lomita avenue.

Mr. and Mrs. Barnett have just put their Windsor Road home through the same process of renovation and rejuvenation, and moved into the Lomita avenue place in order to superintend the work necessary to be done there.

## NEW ASSEMBLY DISTRICT ASKED

CITY OF GLENDALE WOULD BE  
CENTER OF SECTION FOR  
SELECTING LAWMAKER

## PLANNED BY WHITE

PRESENT REPRESENTATIVE IS  
PROPOSING NEW LINES TO  
EXCLUDE PART OF L. A.

If the plan of John Robert White of Glendale, assemblyman from the sixty-first district, is carried out, a new assembly district will be formed with this city as the "hub."

The reapportionment committee of the state legislature has before it plans to give southern California more senators and assemblymen, as provided by law.

A dispatch to The Evening News states that the bureau of census at Washington has notified the committee it is compiling the census on alien population in California. Work of the California committee was blocked because no figures were available to show what percentage of the state's population was alien. Ineligible alien population cannot be taken into consideration in figuring reapportionment.

Northern senators and assemblymen are opposing the efforts of the southern delegation to secure the increased representation as permitted by the growth in population, for the north would lose in the reapportionment.

### Outlines of New District

Believing that Glendale and the San Fernando valley should be permitted to elect its assemblyman independent of a large Los Angeles city vote, Assemblyman White, so he informs The Evening News, is proposing to form a new district that would include, roughly, Nithsdale, Annandale, Eagle Rock City, La Canada, La Crescenta, Sunland, Glendale, Burbank, Van Nuys, Saugus, Newhall and the Antelope valley and, perhaps, a small portion of the city of Los Angeles.

At present there are about 32,000 registered voters in the sixty-first assembly district, of which Glendale is a part. In the district proposed by Assemblyman White there would be about 19,000 registered voters. Of these, there are over 7,000 in this city.

The proposed new district would have Glendale as the "hub" and, too, this city would play a prominent part, it is presumed, in the election of its representative in the assembly.

## NEW RESIDENCES

HOMES ARE JUST ABOUT READY  
FOR OCCUPANCY, SO SHOW  
METER APPLICATIONS

A number of new residences, large and small, are just about ready for occupancy, as indicated by applications for the installation of light meters.

Among them are Ida M. Terry's large double house, with plastered exterior, at 207 North Orange; J. A. Toner's at 635 Geneva, Charles Kausen's at 225 Burchett, J. F. Gutekunst's at 1305 East Harvard, W. O. Murphy's at 810 East Maple and A. L. Fryer's at 609 East Lomita avenue.

A permit was taken out yesterday for a 12x14 addition to the Acadia avenue school, to cost \$500.

R. R. Houghton is building a one-room residence at 114 Olive street, to cost \$400.

### DISAPPEAR FROM HOMES

Lloyd Brandstater, Roland Current and Louie Gingrich have disappeared from their homes and it is supposed they are headed for San Francisco, where the former has relatives.

### JAPANESE CHOOSE OWN MATES

TOKIO.—As Japan proceeds to adopt western customs the old usage of having parents choose husbands or brides for their offspring is gradually falling into disuse. In many cases the young people prefer to depend on the dictates of their hearts rather than upon the brains of their parents.

The activities of marriage agencies are also becoming quite common, as has been shown by a police investigation made recently in Tokio, when the affairs of thirty of these bureaus of Cupid were looked into.

Dr. John T. Miller, professor of

of the course he is giving here under  
the auspices of the P-T-A. Federa-

The lectures begin at half past

discourse is "Character Analysis  
Made Practical."

The lecture on Tuesday evening  
was followed with the closest atten-  
tion, and there was a fair attendance  
considering the weather. Those  
who heard the opening lecture of the  
series declared themselves much  
pleased with it; among those who  
think highly of Dr. Miller's lectures  
is Superintendent of Schools Rich-  
ardson D. White, who has known of  
the doctor's work even before his  
coming to Glendale.

and for many years was a prominent  
figure in Springfield, Illinois, where  
he served as clerk in the legislature  
for many sessions and was cor-  
respondent for a chain of daily news-  
papers. His acquaintance among  
public men, such as state and nation-  
al legislators, governors and other  
high officials was very extensive.

He kept up his writing after he  
came to California, sending letters  
back to the home papers and furnish-  
ing many interesting articles to The  
Evening News. He was a poet of  
considerable ability and many of his  
efforts in that line have been read  
and admired by his Glendale friends.

He possessed a strong, deep bass  
voice and even after he came to Glen-  
dale he would take part in church  
singing with the utmost delight. In  
his prime he was noted for his con-  
tributions to the vocal music in  
church and Sunday school.

Among the close friends Mr. Parker  
made since coming to California  
were Dr. Norman Bridge of Los An-  
geles and Cadet Taylor of Monrovia.

For nearly a year past Mr. Parker  
had been very feeble and was able  
to be out on the street but seldom.  
Nearly a month ago he took to his  
bed and was devotedly attended by  
his old friend, Mr. Webber, and his  
son Ezra. There seemed to be no  
specific disease, but simply a grad-  
ual giving down of the bodily pow-  
ers, owing to his advanced age.

NIGHT OF FEB. 3

Carrying out a promise to bring to  
Glendale the very best in the world  
of music, the Rector Institute which  
has a branch studio in Glendale has  
engaged at its own expense the fa-  
mous Saslavsky trio for a concert at  
the Keller studio in Glendale on the  
evening of February 3. Miss Hazel  
Linkogel, a Glendale violinist of  
great merit will also appear on the  
program.

Music lovers will be delighted at  
the opportunity to hear this wonder-  
ful trio right here in Glendale and  
at the low price of admission that  
will be charged. Students are being  
given special rates and all students  
of the Rector Institute will be admit-  
ted free, according to a custom of  
the school, as a part of the course in  
musical appreciation. The adver-  
tisement of the Rector Institute on  
page three gives further information  
in regard to this unusual musical  
event.

**New Dairy Lunch**

Tomorrow morning a dairy lunch  
will be opened at 219 South Brand  
boulevard, just south of Furbeck's  
art shop. The owners, Mr. and Mrs.  
E. C. Smith, recently sold their res-  
taurant in Los Angeles. They em-  
ployed nine people there, but sold  
out to escape the hard work that  
such a place entailed. The adver-  
tisement on page 4 of today's Even-  
ing News will give an idea of the  
prices at which they will serve the  
large variety of dishes they will pre-  
pare. Of course, only a few of these  
are mentioned in the ad. Every-  
thing will be home-cooked.

What the public seems to be wait-  
ing for is an official statement that  
prices have reached the bottom.

NUMBER APPEARS STEADILY IN  
RECENT LIFE OF WOMAN  
IN SLAYING TRIAL

Some of those who have been  
closely following the case of Mrs.  
Louise L. Peete, now on trial in Los  
Angeles for the murder of Jacob C.  
Denton, are pointing to the fact that  
the figure 19 seems to play a promi-  
nent part in the woman's affairs.  
gan—and yesterday was January 19.  
after Denton had been missing over  
a month, Mrs. Peete left the Denton  
home to return to Denver, where her  
husband had that day notified her of  
his wish for a divorce.

On October 19 the authorities de-  
veloped that Denton had been shot to  
death from behind.

It was on November 19 that Mrs.  
Peete was scheduled to go to trial,  
but her attorney resigned and the  
case was continued.

Yesterday Mrs. Peete's trial be-  
gan—and yesterday was January 1.  
Further, it was predicted in court  
yesterday the case would require  
about a month to try. Therefore,  
there are some who are wondering if  
the verdict of the jury will be re-  
turned on February 19.

## Secret of Joss Sticks

The composition of the candles called joss sticks, which are used in all the religious ceremonies of Buddhism, has long remained a mystery, the preparation of the sticks being entrusted to certain persons chosen from a limited class. Not long ago, however, there was learned the manner of making joss sticks in Indo-China. A stem of bamboo is rolled in a preparation containing fourteen different odoriferous drugs, two of which are significant, as showing a knowledge of chemical and physical properties. These are aconite, which serves to protect the sticks against the attacks of rats and mice, and camphor, which causes them to burn steadily without being periodically extinguished.

The citizen who is actually 100 per cent American is not the one who is talking about it.

Anyhow, the last two years have disposed of the pleasant fiction about two living as cheaply as one.

## HOLD DISCUSSION

HIGH SCHOOL P.-T. A. HAS MEETING AT WHICH TWO TOPICS ARE TALKED

Two round table discussions at the High School P.-T. A. meeting yesterday afternoon proved to be an interesting and profitable feature.

The first one was led by Mrs. J. W. Cotton and her topic was "Psychology in the Home, and Do You Use It?" The thoughts brought out by the discussion emphasized the idea that faults of children in the home such as disorder, procrastination, exaggeration, irritability, can be corrected by methods more effective than scolding if one studies one's children and uses one's knowledge of psychology.

The second discussion was led by Mrs. A. H. Brown; the topic was "Some Things in Home Life That Make It Beautiful." The thought emphasized in this discussion was the importance of the home influence that impresses on the minds and hearts of children love and reverence for home and the principles for which that home stands. Mutual service, hospitality, respect for each one's individuality and his possessions, letting him have his own books, his own hobbies, his own room, if possible.

## Intensifying Family Love

These were points touched upon in the discussion as necessary means of intensifying family love and love of home, especially important in the case of high school boys and girls, who are soon to leave home for college or business life and to whom beautiful memories of home life will be an incalculable influence for good.

Many of the teachers were present and took part in the discussion. A social hour followed the interesting meeting which was attended by about fifty members of the association.

## STAG PARTY

HAROLD RUSSELL IS HOST TO NUMBER OF HIS FRIENDS ON 20TH BIRTHDAY

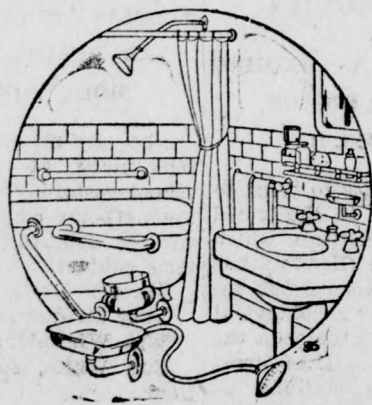

Dr. Oliver Wendell Holmes thought the age of twenty a golden one, worthy of celebration in one of his happiest poems.

Harold Russell, son of Dr. Jessie Russell, 643 North Maryland avenue, attained the dignity of twenty years on Tuesday; and in celebration of the event his mother arranged for him a "stag" party, inviting twenty of his most intimate boy friends from all over the Southland.

Deep crimson roses intermingled with ferns, soft-shaded candles, a beautiful birthday cake, clever place cards and favors made gay the birthday dinner table where a sumptuous menu of all the things that boys like and that only boys could digest, was served at 6 o'clock.

Cards and merry games were the pastimes of the evening, which terminated with an 11 o'clock supper.

Miss Adeline Marjorie Jack, aunt of the young host, assisted his mother in serving.

## DAYLIGHT SAVING BILL IN LEGISLATURE

(Special Service to Glendale Evening News)

SACRAMENTO, Jan. 20.—A daylight saving bill similar to the wartime daylight saving act was introduced in the legislature today by Senator Anderson, Oakland. The bill provides that at 2 p. m. on the last Sunday in March all clocks in the state shall be advanced one hour, and at 2 p. m. on the last Sunday in October they shall be set back one hour.

By a vote of 34 to 0, the senate voted today not to reconsider the King bill which would increase the state tax on public utility corporations. The measure now goes to the assembly, where a warm fight is expected.

## EDITORIAL COMMENT

## NATIONAL HIGHWAYS PROGRAM

The government's assistance in the construction of national highways has been a very real one. In hundreds of counties the work of federal engineers has set a mark that stimulated local officials to better efforts. The comprehensive program that the government has planned is a real service to the nation.

The good roads bureau of the department of agriculture has just approved federal aid for the construction of nearly 10,000 miles of roadway. This mileage has to do with cross-country roads, running both east and west and north and south. It includes only about one-third of the total projects approved by the bureau since the federal road act became operative.

While this good work is going on, it is timely to suggest that there should be more co-ordination in the construction. The object, of course, is a durable system of roads finally embracing the entire country. The work certainly has been reliable, in most cases, and under excellent inspection. But for the most part it has been in spots. The result is that we now have a patchwork of hard roads throughout the country, instead of a system. Up to a few months ago the longest stretch of improved road made possible through federal aid was nine miles. Efforts to link up greater territory have been made since then, but the whole project is still far from realization.

Now is an excellent time for the good roads bureau to see to it that the disjointed parts are connected up. A little far-sighted planning will do it.

## NEW SPORT IN FRANCE

With Jack Dempsey's cauliflower ear being nursed in secretive seclusion and the off season in baseball upon us, those inclined toward sport turn with a little sigh to dear old Parce.

In France folk have found a new way to amuse themselves, and as the game permits of betting it is fast becoming popular among all classes. This is the cock-crowing contest. It is natural for a rooster to crow about 60 times an hour, when he's in the crowing mood. But under training he can be induced to do more than 100 cock-a-doodle-dos in half an hour. First he must be shut up in a dark coop and fed on millet and chopped beef well saturated with wine. When he's released he is in shape to crow his fool head off. The cock that crows the oftenest in a given time is the winner.

While it is not unlikely that this diversion may be practiced on a few barnyard fowls in the United States, there really seems no present likelihood of its supplanting some of the other sports that now are rampant.

Skating, snow-shoeing and tobogganing are surely more healthful both to body and to spirit than watching a tortured creature expend its energies in drunken crows. Where there is no ice the old-fashioned game of shinny may still be played, or we miss our guess. The youth of this nation will find more exhilaration, more stimulus, and more real sport in a mere tramp across a countryside, or evening's frolic on a bobsled or a hayrack, than in all the novelties of fast life that may be imported.

The worst of it is that the ideas for freak clothes for women are usually the product of the brains of men.

Some persons give little thought to their character if they are able to get the kind of reputations they want.

Congress will be wise if it discovers how to levy necessary taxes without causing too much pain to the taxpayers.

Some folk think they have done their duty by a hard-working insurance agent when they find a place for one of his calendars.

ONE GROUP OF PROGRAM BOARD OUTLINES IMPROVEMENTS IN BEHALF OF GLENDALE

One group of the program committee of the proposed reorganized Chamber of Commerce held a meeting last night and, after a discussion, decided that the following matters are of vital importance to the city and should be taken up in the order named:

Sewer system, more schools, enlarging of water supply, more industries, civic center, parks and a septic tank for Glendale Heights.

Those attending the meeting were W. E. Anderson, Mrs. Ann P. Bartlett, O. H. Belew, J. M. Blankenship, E. A. Bode, C. Caswell, J. E. Chandler, H. D. Charlton, L. T. Rowley.

**MAY LICENSE BEAUTY PARLORS**  
JEFFERSON CITY—Licensure of persons who operate "beauty parlors" in Missouri may be recommended to the legislature. Dr. Geo. H. Jones, secretary of the state board of health, said that persons interested in such a measure had reported to him that a bill establishing the examination and licensure of "beauty specialists" probably would be introduced. The last legislature enacted a measure providing for examining and licensing chiropodists.

## SESSION ISSUES

IMPORTANT QUESTIONS ARE  
COMING UP FOR ACTION  
BEFORE LEGISLATURE

SACRAMENTO, Jan. 20.—With the legislature winding up its work preparatory to going back home for advice from the constituents, the big issues of the session are becoming more and more evident.

The big scrap of the session will center about reapportionment. Other issues which occupy the center of the stage are:

Reorganization of the state government.  
Irrigation.  
Revenue.  
Labor measures.  
Repeal of the indeterminate sentence act.  
Prohibition.  
San Francisco leads in the fight against reapportionment, and Los Angeles directs the movement to redistrict the state on the basis of the 1920 census.

Outline of Northern Plans  
Here's an outline of San Francisco's campaign:

An attempt will be made to block all reapportionment legislation in committee. This, it is expected, will be difficult, as both senate and assembly have pro-reapportionment majorities on the committee.

This failing, an attempt will be made to block reapportionment on the floor of both houses. The San Francisco bay delegation is trying to line up country assemblymen against any reapportionment plan, pointing out that whether the bay cities lose anything or not, the country districts face a greater loss to Los Angeles.

Seven reapportionment plans have been prepared and most of them give the south less than it is asking.

The wet and dry fight will not be exciting. Figures have been compiled to show that the house is wet and the senate dry. This condition will act as a check upon all wet or dry legislation.

However, the wets are expected to see to it that some measure regarding liquor is brought to a vote so that all legislators can be placed on record.

Labor Plans Compromise Campaign

In the last week labor representatives have become more and more convinced that the situation is not so bad as they feared. The labor lobby is going slow, introducing new bills, none of them radical. Labor intends to win a battle of compromises, hoping to gain a little here and there.

Reorganization of the state government will probably be provided in measures to be presented to the legislature by the administration this week.

The fight on the indeterminate sentence law is arousing more interest among the newspapers than among the lawmakers. It is generally declared about the capitol.

Few legislators are convinced that the law is wrong, and fewer want to go back to the old system. Amendment rather than repeal is held likely.

There is bound to be skirmishes on the plans for revenue. At the present time it would appear that the tax on gasoline will be one of the plans used to tide over the state financially.

## Menace Seen in Hatred

LONDON—Sir Phillips Gibbs, the famous war correspondent, has returned from his short visit to the United States with one bitter memory—of the hatred of England that is being sedulously and subtly cultivated in America.

In his new book, "People of Destiny," he tells of his many pleasant recollections of New York and Boston, but says:  
"There is a propaganda of hate being spread throughout the country of most poisonous, malicious, and dangerous character, in which England is represented as an arrogant, grasping, and brutal country, intensely jealous of Uncle Sam and deliberately hostile. It is the same kind of propaganda which inflamed Germany against England, and England against Germany. It reaches down to the ignorance and passions of the same classes."  
"Taints in American newspapers are answered by gibes in English newspapers. Bitter speeches by American senators are cabled to England and hurt. They are answered by stinging satire.  
"Is the world not old enough to get rid of all that silly, childish barbarism? Has it learned no lesson at all out of the massacre of its youth on the altar of stupidity? Are civilized peoples to go on flinging mud at each other for sport; uttering provocative cries like dirty little school-boys for the sake of scoring off each other in newspapers or political debates, careless of the horrible dangers which are thereby caused?"

Discussing the means of best preventing this state of affairs, Sir Phillips suggests a sort of journalists' union.

"I do think," he says, "that there might be an international society of journalists pledged in honor to abstain from all provocative writing about other nations, and to denounce as unprofessional the conduct of any of their fellows who are found guilty of spreading slander and spite calculated to disturb the world's peace."

The United States leads the world in electric steel furnaces, having over 300 at the present time. This country produces more than any other country.

## German Fleet Growing

BERLIN — German shipbuilders are laying their plans for the future on the development of oil-burning rather than coal-burning ships. At present, there is some development of motor ships, using Diesel motors like those which drove the U-boats. Builders, however, entertain divergent views as to the practicability of the motor ship, the Bremen group holding more enthusiastically a brief for this type than do the Hamburg builders.

Fourteen ship lines operating in Germany have recently increased their capital from 311,500,000 marks to 447,000,000 marks, in part to meet higher costs and in part to prevent foreign lines from getting a grasp on the concerns. German lines are now operating to all parts of the world, and the prospects for the future are regarded as rather good, despite the fact that the process of rebuilding a merchant marine is necessarily slow.

Recent alliance between steel concerns and shipbuilders make it possible for a broader development than would otherwise have been the case. And, the shipbuilders are happy at the fact that their workers are showing a healthy willingness to "stick to the job." Purchases of ships from outside are necessarily limited by high exchange. There is considerable chartering, but the tendency is, as before and during the war, to develop fixed lines on fixed trade routes.

It is estimated that Germany now has 419,000 tons of her own shipping as against 5,240,000 before the war, with about 185,000 tons of new shipping in sight. The recent alliances with American lines are hailed here as great assets, offering the chance eventually for the German merchant marine to have a new "place in the sun."

Volcanic eruptions of mild intensity have fired three mines near Fayette City, Pa., causing \$3,000,000 damage.

The person who has gained a reputation for untruthfulness can deceive others best by telling the truth.

## Public Has Control

William M. Wood, president of the American Woolen company, made a statement a few days ago which contains a bit of enlightenment on the industrial and business situation. In giving reasons for the cut in the wage scale for textile workers, Mr. Wood said that the "public will not pay prices on present costs."

"If the prevailing rate of wages could have been maintained, I would have been only too glad," President Wood said, "but the attitude of the public is against it. It will not pay the prices which the present wages involve. It inevitably means reduced prices for our goods, reduced profits and reduced wages."

When the public became convinced that prices were being pyramided all along the line, it refused to "pay prices on present costs," and the result is that manufacturers and dealers found themselves well stocked with goods made at high costs in materials and wages.

The statement of President Wood is a frank admission of the influence and power which is held by the public, but it is a control which should not be used without thought to the serious consequences which may follow indiscretion. The same injury which followed in the wake of reckless spending may be caused by withholding buying in the hope that pre-war prices may be restored.

## Trousers Save Money

PATERSON, N. J.—Louis Lenner accidentally discovered an antidote for New Jersey's crime wave. "Put on two pairs of trousers" is his formula.

A chill wind was blowing early the other morning when Lenner had to rush from his home to summon a doctor for his wife.

"Two pairs of trousers will not come amiss," said Lenner to himself.

In front of the public library two of the state's many highwaymen urged him, with revolvers drawn, to throw up his hands.

"Search me!" cried Lenner, confident in the security of his double-barreled trousers.

The robbers left him provoked, after finding nothing in his outside trousers. Carrying a fat bank roll in his "liners" Lenner resumed his journey.

Italy is combating illiteracy by establishing 2000 new schools. One hundred thousand teachers are needed, of which 80,000 have already been engaged.

The building of at least a million homes is about the only thing that will queer the rent profiteering business.

It is too soon to give up the idea of higher education—there are still a few ways in which the unlearned can not earn money.

ing the height of buildings to be  
for future action. These were limit-  
erected in the various zones and set-  
ting forth what portion of the area  
of lots in certain districts could be  
covered by buildings.Gordon Whitnall, secretary con-  
sultant of the Los Angeles city plan-  
ning commission, was present by in-  
vitation, and he gave the committee  
some valuable advice on the matters  
before them. He said that Los An-  
geles was preparing to test, in the  
courts, the city's right to establish  
set-back lines for residential dis-  
tricts and he advised that Glendale  
await the outcome of said test.**Urges Big Highway System**He also urged the comprehensive  
highway system leading into Los An-  
geles from the northwest, in which  
Glendale is vitally interested. He  
said that it has been conclusively  
shown that 25 per cent of all the  
travel into the big city, by auto and  
motor truck, comes over the San Fer-  
nando Road.  
At the close of Mr. Whitnall's  
most interesting address, for which  
he was heartily thanked by the com-  
mittee, Mr. Watson moved, and it  
was seconded, that the proposed or-  
dinance just discussed and consid-  
ered, accompanied by map, be pre-  
sented to the city council, at its  
meeting, this week, as the commit-  
tee's report. The motion carried,  
and committee adjourned to meet on  
call of the chairman.**Would Bridge Hudson**NEW YORK—Definite plans have  
been made for the world's greatest  
suspension bridge across the Hudson  
river to connect New York with New  
Jersey, according to announcement  
made recently. The estimated cost  
is between \$100,000,000 and \$200,-  
000,000. It would be the first bridge  
over the main part of the river south  
of Poughkeepsie.The bridge would run from Fifty-  
seventh street, Manhattan, to Jersey  
City, and would have a main span of  
3000 feet, almost as great as the  
combined Brooklyn and Manhattan  
bridges, which now span the East  
river. The main structure would be  
8300 feet long. Two cables, each  
five feet thick, would support the  
mammoth structure, which would be  
double decked and have a capacity  
seven times as great as the Pennsylv-  
ania tubes, which now feed New  
York City. The engineer in charge  
of the plans is Gustav Lindenthal, a  
noted builder, who designed the fa-  
mous Hell Gate bridge and other  
great structures.

**NEW MEMBERS**MANY ARE TAKEN IN SUNDAY  
BY PRESBYTERIANS; SONG  
SERVICE IS ENJOYEDLast Sunday was a marked day at  
the Presbyterian church. At the  
morning service the Lord's Supper  
was observed, and a large number  
of new members were received, both  
by letter from other churches, and  
by confession of faith. Among the  
number were several members of the  
Dynamo club of young men, and the  
whole class was asked by the pastor  
to come forward with them. In the  
sacramental service the pastor was  
assisted by Rev. Dr. George, of Ta-  
coma. The congregation was the  
largest which has ever gathered in  
the church.The evening service was given over  
to Mr. and Mrs. Robert Harkness,  
world-known musical evangelists,  
who were met by an audience even  
yet more crowded than that of the  
morning. Gospel singers and play-  
ers there are whose musicianship is  
far from being all that could be de-  
sired, but not so with these.**Both Are Talented**Mrs. Harkness' rich and beautiful  
voice is graced with the polish of  
highest culture, and Mr. Harkness'  
deft playing with the piano is that of  
the genuine trained musician; while with  
both the schooled talent is wholly  
dominated by high spiritual aim.  
The audience was led by Mr. Hark-  
ness' skilled inducement into sing-  
ing heartily not only known songs,  
but ones perfectly new, and even one  
made at the moment by him upon a  
text from the congregation.Mr. Harkness narrated passages of  
his experience in Christian work in  
different parts of the world, which  
were listened to with most earnest  
attention. Altogether it was a rich  
and memorable evening.**Mascot of War Dead**SAN FRANCISCO—Monte, the lit-  
tle black cub bear taken to France as  
mascot of the 319th Engineers, is  
dead.Through shot and shell Monte fol-  
lowed his pals of the Engineers' corps  
to victory in the Argonne and his  
chunky head was stroked by Gen-  
eral Pershing when he reviewed the  
fighters after the armistice.Monte had a friendly disposition.  
Recently he was presented to the city  
and given a home in Golden Gate  
park.Because of his lonesomeness, a  
keeper put him in an adjoining cage  
with two bruins of different species.  
Monte's overtures toward establish-  
ing a friendship with the pair met  
with snarls. So it happened that  
when the keeper distributed the even-  
ing meal, Monte was stretched out  
dead, torn and clawed.Shrunk away in another corner of  
the cage skulked the victors.  
Monte had a thrilling career—from  
his peaceful home in the Rocky  
Mountains he was sent as mascot by  
a Montana man to join the 349th En-  
gineers and then his life of activity  
began—a flying trip across the coun-  
try, then over the water to England  
and France.**Church Pews Filled**CHICAGO — Church attendance  
here has increased greatly during  
the last few months, according to  
statements by local clergymen. The  
period of fuller pews practically co-  
incides with the present business  
slump, and pastors believe that fi-  
nancial and business depression are  
responsible for the increasing con-  
gregations."The prosperous business man is  
inclined to self-sufficiency," said the  
Rev. Howard Agnew Johnston, pres-  
ident of the Chicago Church federa-  
tion, representing the city's 700 Pro-  
testant churches."When commercial depression  
comes the merchant and business  
man realizes his impotence and  
learn more and more on spiritual  
aid. Attendance at my church has  
increased noticeably during the last  
ten months."An analogy is found in the Eng-  
land of 1914. That hour of mental,  
physical and spiritual suffering and  
business demoralization found the  
churches of the land filled with  
kneeling thousands."**Burns His Cork Legs**HUNTINGTON, W. Va.—One of  
the biggest "moonshine" raids in the  
history of southern West Virginia,  
extending over a period of nine days,  
and centering in Logan county, was  
reported here by Frank Adkins, state  
prohibition officer.Seventeen prisoners were taken  
and twenty stills, 100 gallons of  
moonshine, 5000 gallons of mash and  
forty pints of bonded whiskey were  
confiscated by state and federal of-  
ficers.How a man escaped arrest because  
the officers refused to carry him  
from his home in the mountains, af-  
ter his wife had burned his cork legs,  
was related by Mr. Adkins. The raid-  
ers, he said, found a still and 200  
gallons of mash in the house occu-  
pied by Bill Collins, far up the moun-  
tain side, above Volyn. While the  
officers were busy destroying the still  
and mash, Collins' wife unscrewed  
his cork legs and burned them. Col-  
lins was not arrested, as the agents  
had no means of transporting him  
from the mountains.Former Secretary of State Robert  
Lansing is one of the foremost Bib-  
lical students in America, and articles  
from his pen on Biblical and religious  
subjects have often appeared in the  
periodical press.**BLOCKS FILL UP**NEW RESIDENCES LOCATED ON  
PROPERTY THAT REMAINED  
VACANT FOR YEARSOne of the marked features of  
Glendale's great volume of build-  
ing the past year is the location of new  
residences in blocks that had been  
entirely vacant for years.A notable example of this is Wal-  
nut street, between Magnolia and  
Cypress avenues. A. M. Salyer's  
beautiful adobe house led to the  
building of several other residences  
in the same block. Alexander, Con-  
cord, Chester and State streets, all  
north of Myrtle and west of Kenil-  
worth avenue, have been similarly  
built up, the first-named already hav-  
ing nearly a dozen nice residences.**PAYS MORTGAGE**GLENDALE ELKS TO ATTEND  
CELEBRATION TONIGHT BY  
SANTA MONICA LODGEA number of the members of the  
local lodge of Elks are planning to  
attend the meeting of the Santa Mon-  
ica lodge tonight, when a mortgage  
for \$17,000 on the clubhouse of the  
bay city organization will be burned.The burning of the mortgage will  
be attended by a great jollification,  
it is stated, and delegations will be  
present from all lodges in southern  
California. The Santa Monica lodge  
has about 2,000 members and of this  
number about 350 have been admit-  
ted within the past year.The Santa Monica lodge believes  
that its present club rooms are too  
small and a move is under way to  
erect a new building.**Pennies Saved Bandit**CHICAGO—Examination of a  
wound sustained by a sailor bandit,  
who, with three men in army uni-  
forms, fought a revolver battle with  
a private detective in front of the  
home of Cyrus H. McCormick, head  
of the International Harvester com-  
pany, proved that his pocketbook  
containing eight pennies saved his  
life.The force of the bullet was im-  
peded when it struck the pennies and  
lodged in his abdomen. It was eas-  
ily removed by a police surgeon with  
his fingers.Roger Gale, a detective, stationed  
at the McCormick home as a guard,  
was attacked by the quartet. The  
sailor, who said his name is John  
Johnson, an apprentice seaman at  
Great Lakes naval station, was de-  
serted by his companions when he  
fell wounded after a score of shots  
had been exchanged.**TEXAS WAY IS DIRECT**In joining California in protest  
against settlement by Japanese, Tex-  
as adopted a method that was breezy  
and direct. California has kept its  
legislature busy writing laws, its  
courts busy construing them, and the  
federal government busy with official  
inquiry into a delicate interna-  
tional situation. Texans met two in-  
coming Japanese families and told  
them of the white man's sorrow that  
the yellow men could make no longer  
visit than for a night.There is a question, however,  
whether repetition of the Texas inci-  
dent might not cause a far greater  
flameback of Japanese opinion than  
the orderly processes of California.

archic means of protection against a

**Twos Said:**"Such a darling blouse! How  
much is it?" asked the gushing  
shopper."Fifty dollars—and so sweet for  
the price!""It's a dear—just exactly what  
I want, the color and everything.  
I believe I will take it—though  
\$50—""Pardon me, madam, I have  
made a mistake; this is marked  
only \$15 instead of \$50.""Oh, I see! Well, show me  
something a little better."It's a curious fact that some  
people still hang to the mistaken  
idea that an article, to be good,  
must also be high priced. We've  
exploded that theory long ago be-  
cause we've shown to hundreds of  
hardware users that really good  
hardware can be purchased here  
at reasonably low prices. Buy an  
article for its quality and service  
giving value instead of according  
to price and you'll make no mis-  
take. Buy your hardware here  
and insure getting the right qual-  
ity at a right price.**NEALE & GREGG HDW. CO.**

union of Missourians will be held at

ary 17, it is stated by C. H. Parsons,  
secretary of the Federation of State  
Societies. He further states that, in  
case of rain, the outing will take  
place on February 24.It is estimated that there are about  
100,000 Missourians south of the

nence and constant usage oftentimes  
make them obnoxious. The adjective  
"wonderful" right now is in the  
midst of a reign that to some revo-  
lutionists seems too long and unde-  
servedly popular. In the theatre you  
hear "Isn't she wonderful?" In the  
restaurant you learn that the sauer  
kraut or the herring is "wonderful."  
In school you have a "wonderful"  
lesson or a "wonderful" teacher. On  
the car lines there are "wonderful  
conductors" and at concerts the tal-  
ent of the artists is "wonderful."The word is used by men and  
women in every walk of life with  
strangely similar gusto. Is it a re-  
flection on the paucity of appropri-  
ate adjectives or is it merely a habit  
that we et into in describing every-  
thing from pins to locomotives as  
wonderful? Keeping to one word  
means that people are either aping  
some pseudo perfectly proper per-  
son or that the person repeating and  
repeating the word should purchase  
a book of "synonyms for all occa-  
sions."According to a Brazilian chemist  
the fiber of a plant which abounds in  
the state of Para can be utilized in  
the manufacture of several varieties  
of paper.A cargo of horses, the pick of the  
best herds of Idaho, Montana and  
Nevada, has been sent to China to
